Summary

I am an experienced Android Developer with a strong technical background and excellent project management skills. My internships at Tefologic, Google, and Codeway have honed my ability to work on multiple projects simultaneously, leading to significant advancements in mobile app development. I specialize in enhancing user experiences through innovative feature implementation, optimizing app performance using Java and XML, and integrating new APIs for expanded functionality. My passion for continuous learning and problem-solving, coupled with my ability to lead and collaborate with cross-functional teams, ensures efficient and impactful project execution.

Skills

Java · Android Studio · Android SDK · Git · Gradle · Json · Firebase · XML · C++ · Python

Experience

tefoLOGIC
Android Developer Intern
Remote
03/2024 - 06/2024

- Contributed to the development of innovative mobile applications, enhancing user experiences by implementing new features.
- Applied advanced knowledge in Android development, utilizing Java and XML to optimize app performance.
- Integrated new APIs to expand app functionality and ensure seamless operation.

Google
Android Developer Intern
Remote
04/2024 - 06/2024

- Engaged in high-impact Android app development projects, collaborating closely with teams to deliver innovative solutions.
- Demonstrated strong problem-solving skills and contributed to technical innovations.
- Actively participated in continuous learning and development initiatives.

Codeway
Android Developer Intern
Remote
04/2024 - 04/2024

- Contributed to multiple mobile app development projects, actively engaging in code reviews and collaborating effectively with cross-functional teams.
- Engaged in continuous learning through training sessions on the latest technologies.
- Contributed to innovation and excellence in a dynamic work environment.

Education

Swarnandhra College of Enginnering and Technology
Narsapuram

B.Tech - Electronics and Communucations Enginnering · 7.09CGPA · 2020 - 2024

Sri Chaitanya
Palakollu

Intermediate - M.P.C · 8.68CGPA · 2018 - 2020

Aditya High School
Palakollu

SSC · 9.3CGPA · 2017 - 2018

Projects

Blood Donation App
12/2023

- Developed an app to connect donors and recipients, improving community health and emergency response efficiency.
- Implemented features like registration, blood group matching, profiles, notifications, and location-based search functionality.
- Utilized Android Studio with Java/Kotlin, ensuring a responsive and user-friendly interface through modern UI/UX principles.
- Integrated Firebase for real-time database, authentication, and notifications, ensuring secure data handling and updates.

Public News App
12/2023

- Designed and developed a user-friendly news app with XML and Material Design for easy navigation and reading.
- Integrated Retrofit for fetching and displaying real-time news articles from multiple sources through API calls.
- Used Firebase for secure user authentication and data storage, ensuring reliable access to user-specific content.
